

# NEW MEXICO HORSE COUNCIL

## PROJECT GELDING

### Liability Waiver

I authorize the veterinarians associated and working with Project Gelding to perform a castration procedure, using anesthetics, on my stallion(s). By signing below, I understand that the participating veterinarians are not able to perform a pre-operative diagnostic evaluation on each participating stallion and that there is a risk involved with anesthesia, including unexpected death. I hereby consent that the procedure may be performed by veterinary students while under supervision of the licensed veterinarian on hand.

Operation Gelding veterinarians and/or the New Mexico Horse Council reserve the right to refuse to perform a castration, or any other procedure, on a stallion.

It is the purpose of this waiver to exempt the New Mexico Horse Council, veterinarians, veterinary students, technicians or volunteers of all liability for personal injury, property damage, death or complications the horse may experience from the castration or other procedures performed.

The undersigned declares that the previously stated terms and waiver, including the Project Gelding Participant Information, have been completely read and understood.

I authorize the New Mexico Horse Council, Project Gelding and its representatives the right to use and publish photographs of me and/or my horse. I understand that these photos will be used for educational purposes and or identification of the horse, related to Project Gelding only. I hereby release Project Gelding and its representatives from all claims and liability relating to photographs used for purposes as stated above.
